DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 10, 12, and 14- 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Brazzell (3,752,121). Brazzell discloses an animal commode comprising a mat (30) having an artificial grass layer (31) which is colored green to represent grass and which may be impregnated with an attractant for the pet that will entice the pet to urinate on the mat; the top grass layer covers a perforated non-absorbant sheet (32); below the sheet (32) is an absorbent pad (33) which may be composed of a plurality of layers of absorbent paper which absorb any liquid which seeps through the apertures of the backing sheet (32); and a lowermost layer (34) is made of liquid impervious material; if desired, any one or all of the layers may be colored green and impregnated with an animal attractant and/or a deodorizer. Although it is not specifically disclosed that grass scent is the animal attractant, since the pad surface is designed to simulate real grass, and animals are attracted to grass, and Brazzell discloses the use of an animal attractant on the mat, it would have been obvious to one of ordinary skill in the art at the time the invention was made to provide that the animal attractant smell like grass to attract the pet to use the pad.

Allowable Subject Matter

3. Claims 11, 13 and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Claims 1-9 are allowed.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
